

## OVERVIEW

Each health benefit EPBP or PPBP must include a delivery network that is adequate and complies with Insurance Code §1301. All covered services that are offered by an EPBP or PPBP must be sufficient in number and location to be readily available and accessible within the service area to all enrollees.

When contracted providers are not available within the TDI mileage access and/or availability standards outlined in Title 28 Texas Administrative Code Section 3.3704, **Aetna Value Provider Network** provides for in-network benefit coverage and has procedures that the EPBP/PPBP will use to assist enrollees in obtaining medically necessary services when no network physician or provider is available, including procedures to coordinate care.

See detailed worksheets for access information by county and by specialty.

Medical

County (whole or part)	Provider type	Reason Network Providers Not Available	Access Plan
N/A	N/A	N/A	N/A

Behavioral Health

County (whole or part)	Provider type	Reason Network Providers Not Available	Access Plan
